To Whom It May Concern:

We at BL-1 have really appreciated working with Mike Barrett and Wireless Capital Partners to get the funding we needed through the sale of our wireless leases. Mike worked closely with us, answered our tough questions and in the end got us the money we were looking for. From start to finish his team at Wireless Capital worked professionally through every step of the process and we always got timely updates through the process.

We would recommend to anyone contemplating a sale of their cellular lease to Mike Barrett and Wireless Capital Partners.

Sincerely,

Stuart Epstein  
President
