To whom it may Concern:

Our church has two cell sites in the Tucson area and we recently completed our second and third transactions with Wireless Capital Partners. We found it appealing to turn a long term non-guaranteed income stream into a guaranteed payment, and WCP was there to make that happen.

In the course of the process, we found Rob and WCP to be forthright and open in their dealings. As was our previous experience, payment came in a timely manner, without delays.

I would highly recommend working with WCP, if their services meet the needs of your organization.

Sincerely,

Rolland Loomis, Jr.

Pastor of Family Ministries and Missions
